SUMMARY

I am a Project Management Professional (PMP)® and implementation specialist with experience in project delivery, systems implementation, process improvement, and operational excellence. My background combines corporate project management and technology implementation with operational leadership in complex mountain environments. I am recognized for building practical systems, coordinating diverse stakeholders, and translating complex operational needs into effective solutions that improve efficiency, consistency, and decision-making.

SKILLS

- Project coordination and implementation
- Administrative support and office operations
- Stakeholder and client relationship management
- Process improvement and workflow optimization
- Systems implementation and user onboarding
- Data management and reporting
- Customer service and account support
- ERP systems (Oracle, SAP) and CRM platforms
- Digital tools, CMS, and web technologies
- Strong written and verbal communication skills
